

An editorial presentation title

A restrained subtitle for a mathematical or research talk

Structure follows the argument

01 · PREMISE

Define the object

Use a short paragraph with enough leading and a visible end margin.

02 · METHOD

Show the relation

Let spacing, alignment, and a fine rule establish the structure.

03 · CONSEQUENCE

State one implication

Whitespace can separate the idea without another container.

Use hierarchy and spacing before adding decoration.
